Online registration: has been a success so far.

~70% of students have submitted their forms.

This process is difficult for incoming 7<sup>th</sup> graders.

The PowerPoint and registration forms were sent to student's school email address with notification of this email sent to the parents. This was for security reasons.

Mrs Shelton can handle any schedule changes that may be needed

PE is now an elective. Uniforms are still required.

Number of students signed up should be available next week.

Carrie will order uniforms

Online learning: 4<sup>th</sup> quarter is considered enrichment and will not hurt grades

Student participation is being tracked

There is a sense that some students say 'I can just walk away because I already have an A.'

PTSG feedback: we do not have much sense of how much or how little our student are doing. The consensus is that we will get through this difficult time and online schooling, while important, is only part of what our children need now. We are grateful for all the effort going into providing online schooling for our kids. Please relay our thanks to the staff and the board members.

Per Greg: Google Classroom summaries of students work are available. Contact individual teachers.

Adjournment: 12:05
